ARRIVAL OF GERMAN TROOPS

Some Surprise Occasioned by Increase of Kaiser's Forces---Members of Tsung Li Yamen in Peking.

Washington Aug 27—After several days intermission in Chinese advices the government today received two dispatches which presumably bring its advices up to the most recent date There are indications that the principal delays in the lines of communication are encountered between Tientsin and Peking a fact explainable by the newspaper advices that [illegible] of Boxers are operating on the line of communication of the Peking campaign force

—Just such interferences with the work of the signal corps men were experienced by the United States forces in the Philippines and by Lord Roberts troops in the Transvaal campaign Usually these interruptions are very short the marauders being driven off [illegible] within a day or two

The fact that more than a week was covered by the last interruption gives [illegible] attacks upon the lines of communication by Boxers are more formidable than was supposed to be possible after the heavy losses inflicted upon them by the international forces in the advance

The last dispatch of the day was the one from Minister Conger referring to the military situation in Peking Unfortunately it lacked a date the minister presumably not having yet received the department s instructions to include the date in the body of his dispatch The state department at first undertook to have the cable companies [illegible] this serious omission but finally [illegible] finding from internal evidence [illegible] message was certainly later than any official emanation from the Chinese capital the message was allowed publicity for what it [illegible]

Mr Conger's reference to the arrival [illegible] some surprise no one apparently having closely watched the movements of the German contingent which is now arriving with fairly regular frequency in China and which consequently may be expected soon to equal in numerical strength the military contingents of any of the European nations there represented

A significant statement in Mr Conger s dispatch is that respecting the appearance in Peking of some of the ministers of the tsung li yamen A natural construction to be given to these statements is that these ministers [illegible] Chinese government formally in negotiations with the powers It having been found impossible up to this moment according to Mr Conger s statement [illegible] any representative of the Chinese government in Peking who was competent to open negotiations It may be inferred if these ministers actually appear with proper credentials one of the problems connected with the present difficulty in China will be solved With some responsible person or persons to deal with it may be possible for the United States to come to some agreement as to a settlement of the Chinese trouble

Ever since the fall of Peking the original difficulty confronting the government here has been to arrange for the next movement in its programme It would not withdraw its troops even if so disposed without arranging for indemnification for the heavy cost it has been put to in the Peking campaign Also it must make arrangements with some responsible authority for the future protection of American interests in China as our [illegible] interest cannot be withdrawn along with the army of occupation Therefore as conveying a faint hope that in the persons of these members of the tsung li yamen there may be found some authorized representatives of the Chinese government competent to make engagements on these points the message of Mr Conger was very welcome to the authorities here

Another statement in Conger s dispatch relative to the decision of the generals not to enter the imperial palace appears to explain the movement of the American troops which the press dispatches were unable to clear up in relaxing the attack upon the palace gates after capturing all but one of them

Another event of the day of some in[illegible] dispatching the Castine from Shanghai to Amoy distant about 400 miles The little gunboat should make the run in about two days under favorable conditions Her force is small but sufficient to serve the moral purpose if there be need for such It appears that she is ordered to Amoy quite as much on account of representations from well informed business circles as from any official advice The consul at Amoy agreeing with the representations of the business interests it was decided to be proper to send a gunboat to Amoy not because of [illegible] apprehensions as to Japanese aspirations but to prevent rioting at this dangerous point

The first direct word from General Chaffee since August 18 came today in the form of a cablegram dated today at Ta-ku reporting the action of the Sixth cavalry with the enemy near Tien tsin on the 19th The cable is as follows

Ta-ku Aug 27

Adjutant General Washington

Col Wint on the 19th reports perceived at 4 a m and engaged large force of enemy seven miles from city dispersed them killing about 100 Americans lost five wounded Will cable names wounded as soon as ascertained

This cable adds nothing to the information in possession of the department relative to military movements as it is simply General Chaffee s report [illegible] of an engagement previously reported by Admiral Remey in a cable dated Ta-ku, Aug 20, in which he said

Morning 19—Sixth cavalry and about 400 English and Japanese dispersed about 1 000 Boxers outside of Tien tsin About 100 Chinese killed five Americans wounded

The description of the action reported by General Chaffee tallies identically with that previously reported by Admiral Remey in the above cable and is identified with it by the war department officials The explanation of the delay in the war department s report [illegible] the Sixth cavalry probably forwarded [illegible] General Chaffee then sent it officially to Washington Although General Chaffee s cable is dated Ta ku it is assumed that it was forwarded from Peking over the field telegraph line or by courier It is assumed however that the field telegraph communication is interrupted and that the dispatch reached Ta ku by courier The fact that the dispatch was sent from Ta ku today was extremely gratifying as it proves that the cable between Ta ku and Chefu is working and that there is no longer any interruption on the land lines from the latter point to Shanghai

There was general disappointment that General Chaffee s message contained no reference to the operations in Peking but this was explained on the theory that General Chaffee as Colonel Wint s superior was simply forwarding the latter s report It is possible that Colonel Wint s report may have reached him over the field telegraph on the day of the engagement (Aug 19) and that his cable to the department may have occupied the intervening seven days owing to the interruption of the field telegraphs in getting back to Ta ku This theory is plausible in that it would account for the failure to hear from General Chaffee since the 19th the day after the date of his last previous message

ALLIES AGGRESSIVE

Take District West of Peking--Li Hung Chang Wants Prince Tuan Arrested.

London Aug 28 3 a m—The allies resuming aggressive operations have taken the district west of Peking This statement based on Chinese authority is cabled from Shanghai From the same place comes the further statement that Li Hung Chang has wired the empress dowager at Hsian fu requesting the arrest of Prince Tuan and the disarmament of the Boxers in order to give him an opening for negotiations with the powers

The illuminations projected at Shanghai in celebration of the relief of Peking have been abandoned lest they should cause a native outbreak

Evidence has been received here" says the Shanghai correspondent of the Standard going to show that General Yung Lu was the real author of the anti foreign outbreak—the empress dowager Prince Tuan and the others all having been persuaded by him to take an extreme attitude while he stood aside and awaited developments

American refugee missionaries in Amoy according to the Hong Kong correspondent of the Daily Mail are anxious to return to the interior but the U S consul has forbidden them to do so and urges them to go to the Philippines or to return to America

Shanghai advices to the Daily News say that consular opinion there looks upon Japanese action in the landing of troops at Amoy despite the protests of the consuls as similar to that of Russia at Niu chwang the whole indicating a tendency to a partition of the empire

Russian journals agree says the Moscow correspondent of the Standard that it is impossible to deal with China in the spirit of revenge as suggested by Emperor William They believe that methods less drastic can better accomplish the ends of Russia in Manchuria The question would be satisfactorily settled to Russian minds by the seizure of the northern provinces

A St Petersburg special quotes Emperor William when wiring in answer to the announcement that a Russian regiment had been named after him as follows

Express my good wishes today with all the greater joy since our Russian and German comrades after a long time are fighting together again shoulder to shoulder According to an old and sacred tradition victory will not be wanting

UPRISING IN HANKOW NOT DUE TO BOXERS

Paris Aug 27—Official dispatches from Shanghai explain that the Hankow uprising was not due to the Boxers but was a plot organized by the partisans of Kang Yu Wei the reformer combined with the secret society known as the Ko lao-hui, an anti-foreign organization who proposed to the southern viceroys a revolt against the Peking government The leaders of the movement relied especially upon Chang Chi Tung viceroy at Hankow for arms gunpowder and other agents of destruction

A proclamation written in English and addressed to Europeans was seized In it the revolutionists declared themselves opposed to the Manchu dynasty but ready to uphold the present emperor They expressed themselves as desirous of founding a constitutional government of protecting foreigners Christians and of supporting the [illegible]

The immediate effect of the government has been to increase the peril of Europeans Proof exists of disorder and pillage due to the same movement at widely separated points The headquarters of the conspiracy is Hankow from which point it ramified into other provinces

Several thousand of the supporters of the movement have received instructions to demonstrate in the central valley of the Yang tse kiang but the viceroy has a sufficient force of regular troops to guarantee the maintenance of order Twelve of the conspirators have been beheaded

TOWNE ON IMPERIALISM

Replies to Speech of Governor Roosevelt Before Republican Clubs.

MAKING CAMPAIGN THUNDER

Describes Roosevelt's Speech as "Enormously Disappointing" and "Evasion and Assertion."

Duluth Minn Aug 27—The largest gathering to listen to a political speech that ever assembled in Duluth occurred this evening at the Armory when Hon Charles A Towne opened the campaign in a lengthy address in which he replied to the recent speech of Governor Roosevelt at St Paul on the occasion of the national convention of the League of Republican clubs and arraigned the administration s policy [illegible] comprised persons of all shades of political belief and many scores of women listened attentively to the orator s remarks for more than two hours and frequently throughout the discourse the applause was deafening

The speech which will be used as a campaign [illegible] is considered as Mr Towne s greatest political effort At its conclusion he was tendered an [illegible] Mr Towne will leave Tuesday or Wednesday for Idaho and other western points [illegible] actively into the work of the [illegible]

Mr Towne opened by expressing lack of patience with any one who believed in their party right or wrong or any president right or wrong considering the latter simply another statement of the divine right of kings He then said

As a rule one subject of interest is uppermost in the public mind and chiefly calls for discussion and decision This is especially true in 1900 The relatively secondary matters important as they are will have reference to policies to be pursued by the republic The issue of first moment the one that temporarily dwarfs all others by comparison is whether the republic [illegible] I shall devote the greater part of my time tonight to the consideration of imperialism Let us first inquire how the question has arisen [illegible] one of the paradoxes of history [illegible] and conquest should have been the inheritance of a war of liberation

He then dwelt at some length the causes leading up to and the chief events of the Spanish war He took up the situation in the Philippines sketching it briefly and telling how brilliantly Dewey and his sailors engaged the Spanish fleet in Manila bay and destroyed it

It was this as a mere incident in the prosecution of our war for the liberty of Cuba that we found ourselves in the Philippine islands It is claimed that circumstances were such as to [illegible] interests and our international duties to pursue in these islands thereafter the policy for which the administration has become responsible A brief examination however of these circumstances will suffice to show that the policy adopted was not only unnecessary but that it was in the highest degree disadvantageous to the United States while involving the utmost cruelty and injustice toward the inhabitants of those islands and violating every principle of good faith and the honorable traditions of American diplomacy

He said the coming of Aguinaldo was at the invitation of Admiral Dewey and that he was to be an ally of the Americans quoting from the naval records in support of his assertions

After again referring to the different situations in Cuba and the Philippines he said

But the statement that we never promised the Filipinos their independence conveys a false impression Our conduct was such as to estop an honorable nation from using such a plea as a justification or as an excuse for attempting to subjugate the islands

The Filipinos made no secret of their object in rebelling against the Spanish government What they desired to do was to form a government of their own and to be absolutely independent of Spain The representatives of the United States in the east knew this object perfectly well The Filipinos proclaimed it to the world

It is important to bear in mind that [illegible] the leadership of Aguinaldo was a government in fact recognized throughout [illegible] island of Luzon and several adjoining islands to the south capable of preserving order collecting taxes maintaining education and a complete system of public administration raising and supporting an army which for a considerable period numbered 30,000 men and conducting war according to the humane principles of modern law

Mr Towne denied that the Filipinos were barbarians or unfit for self-government He declared the idea of taking forcible possession of the islands was not decided upon till a considerable period after the battle of Manila bay and meanwhile the Filipinos were permitted to hope for independence

After describing the strained relations between the Americans and Filipinos after the capture of Manila Mr Towne said

Our opponents are in the habit of referring to the outbreak of actual hostilities between us and the Filipinos as though the latter were the aggressors and [illegible] of such expressions as they fired on our flag

"But of course since we had secretly formed a determination to seize the islands it is apparent that whenever that design became manifest or we attempted to put it into effect the Filipinos if they [illegible] declaring their object to be independence would resist it The aggressor regard[illegible] not be he who stood in defense of a right but he who by act or threat compelled the other to defend it The de[illegible] of the hostile design was itself an attack The wonder is considering the tropical nature of the islanders and the long continued course of our mingled reticence ambiguity and offense that they were not betrayed into violence long before any physical clash actually occurred As a matter of fact however as shown by General Otis official report our troops fired the first shot and the Filipinos stood on the defensive

He then discussed the protocol and the treaty of peace and proclamation of January 3 1899 at Manila which he declared was of the very essence of imperialism

Taking up Governor Roosevelt s [illegible] ly disappointing Neither in matter nor manner is it worthy of its occasion In respect of argument the speech is [illegible] of evasion and assertion In spirit it is [illegible] to its facts it abounds in inaccuracies which performed credibly in history and biography But the world is accustomed to inconsistencies from Mr Roosevelt It has long looked upon him as a predestined and [illegible] eccentric It has given up attempting to explain him or to reconcile him with himself It is quite impossible whether it would be worth while otherwise or not to make an entirely satisfactory diagnosis [illegible] civil service reformer in partnership with Thomas C Platt a citizen soldier who ridicules the volunteer a fighter in battle who finds glory in [illegible] he plays and poses to delegates and galleries to obtain a nomination that he does not [illegible] a gentleman who charges six and a half millions of his fellow countrymen with lawlessness dishonesty and cowardice a statesman who [illegible] roughly at grave questions [illegible] economics and politics swinging his partisan lariat and yelling like an intellectual Comanche

Mr Towne then read quotations from the St Paul speech of Governor Roosevelt which he said showed the truth of what he had said of that speech as a whole He argued at considerable length against any possible constitutional right under which the United States could hold and govern colonies ridiculing the alleged claim that this right was given by that provision of the constitution which gives congress the power to make all needful rules and regulations respecting the territory and other property of the United States

FITZSIMMONS RETIRES FROM PUGILISTIC RING

New York Aug 27—Robert Fitzsimmons today announced his retirement from the pugilistic ring He made an ineffectual attempt today to get on a match for the heavyweight championship with James J Jeffries to take place before the Horton law expires at midnight next Friday and tonight issued the following statement

I am through with fighting I will retire from the ring and will not claim the championship from Jeffries I [illegible] Jeffries Friday night as his manager suggested ten days ago but as he claims he is in no [illegible] through with him and the ring Henceforth there will be one man less in the heavyweight division for I will go out with the Horton law

Fitzsimmons with his manager Percy Williams met William Brady representing Jeffries this afternoon Last Saturday Fitzsimmons deposited $2,500 [illegible] bind a match between himself and Jeffries for next Friday night and Brady sent word that he would meet Fitzsimmons to arrange for a battle between Jeffries and the ex-heavyweight champion Fitzsimmons said he was ready and willing to meet Jeffries on Friday night before the Twentieth Century club under any conditions as to the division of the purse or gate receipts which would suit Brady He said he would be willing for the winner to take all or to split the purse in half or to give 65 per cent to the winner or 65 per cent to the loser or in fact any terms possible so that he could meet the present champion before the expiration of the Horton law

Brady in reply said that Jeffries was in no condition as he had quit training several days ago and that it would be unfair to force a match with a man physically unfit for such a contest Fitz [illegible] time to get into condition and said that although he had gone through two very severe battles during the last two weeks he was on edge and ready to fight to regain the championship Brady said it was impossible for a fight to take place between Jeffries and Fitz on the date mentioned but that he would put up a forfeit at once to bind a match between the two the fight to take place within three months from September 1 and a side bet of $10,000 Fitz would not listen to this proposition and said that it was only made for advertising purposes.

GRAND ARMY ENCAMPMENT

Thirty-Fourth Annual Reunion of Veterans of Civil War.

M'KINLEY AND BRYAN ABSENT

Naval Veterans Were Given the Post of Honor in Parade---Many Notable Visitors.

Chicago Aug 27—W J Bryan has followed the example of President McKinley and declined to be a visitor at the national encampment of the G A R He this afternoon sent a message to Executive Director W M Harper the head of the local committee in charge of the local end of the encampment saying that because of the absence of President McKinley from the encampment he considered it advisable to remain away His telegram is as follows

Lincoln, Neb Aug 2[illegible]

"W M Harper Executive Director of the G A R Reunion Chicago

Since President McKinley is detained by public business I believe that the proprieties of the occasion demand that I also decline and thus relieve the re[illegible] ship W J Bryan

The local committee through Mr Harper expressed its regret at the inability of Mr Bryan to be present by sending him the following message

Your telegram declining the invitation to the Grand Army reunion because of President McKinley s absence by reason of his public duties received The executive committee appreciates your delicacy of sentiment under the circumstances while regretting that we cannot have the pleasure and honor of entertaining you"

Chicago Aug 27—The 34th annual encampment of the Grand Army of the Republic which was formally opened last night by the monster meeting in the Coliseum was in full blast today and in all respects it promises to be the greatest and most successful encampment the army has ever held All last night and all of today train after train [illegible] with veterans and their friends rolled into the various stations in the city and by evening it was estimated by railroad officials that fully [illegible] 30,000 other excursionists had come with [illegible] will be 6,000 additional arrivals by tomorrow morning

The veterans have come from all parts of the republic and every northern state has sent a strong contingent The New York delegation is one of the largest the Empire state has ever sent to an annual encampment Fully 1,000 had come in by this morning and every train from the east brings more New Jersey Pennsylvania and the New England states are all represented by large numbers of old soldiers Iowa Ohio and Indiana and Wisconsin have sent larger numbers than to any en[illegible] Warren Keifer of Ohio and General Edward S Bragg of Wisconsin both said today that they looked to see tomorrow the greatest number of old soldiers that had marched at one time beneath the stars and stripes since the memorable review in Washington at the close of the war

The first day of the encampment was one of ideal beauty in marked contrast to the hot and humid weeks that have [illegible] the first of August There was in the early portion of the day a fresh breeze off Lake Michigan tempering the heat of the sun which shone brightly but not too warmly to make marching a burden for the old veterans who claimed the day as theirs The right of the line on the opening day was given to the men who sailed the seas during the civil war The cheering today was all for them and all the honors were theirs The army will come to its own tomorrow

The heroes of river and sea of the civil war are now a small band Of the 132,000 men enlisted in the navy in the days of the war less than 1,000 marched today and it is regretted by the old sailors that their number was greater in the march today than it will be in any parade to come

But one battle flag was carried by the naval veterans It was that which fluttered from the Monitor Winnebago when Farragut sailed into Mobile bay It was borne by Seaman D D Woolruff of Rockford Ill and beside him marched ex-Boatswain s Mate T R Lynn of Chicago who made the flag while serving on board the Winnebago

Chicago Aug 27—Beside the men who fought afloat from '61 to '65 came [illegible] demolish Montejo s fleet in Manila Bay and made glorious history when Cervera sailed out of Santiago harbor to overwhelming defeat With the veterans of the navy marched a band of men whose lot during the war comprised the worst of hardships—but none the less was as full of glory as the career of the bravest fighters of them all These were the members of the association of ex prisoners of war who received an enthusiastic greeting as they marched along

The parade which was but a prelude to the great march of the Grand Army tomorrow started at 11 o clock from the corner of Michigan avenue and Randolph street and after a short march through the down town streets, turned into Michigan avenue at Jackson Boulevard and passed on south under the beautiful army arch at Van Buren street through the court of honor and out under the naval arch at Michigan avenue and Hubbard court, where it passed in review before Commander in Chief Shaw of the G A R acting Governor Warder representing Governor Tanner Mayor Harrison Commander Jones of the Sons of Veterans and Commander Atwell of the ex Prisoners of War

Chief Marshall J F R Foss of Minneapolis headed the parade attended by Lieut W J Wilson Captain Joseph L Brigham Past Commander F [illegible] F Keeley Lieutenant G L Carden Captain P V Christian Lieut J A Jameson and Ensign L O Lindley who composed his staff The first organization in the column was composed of sailors from the revenue cutters Fessenden and Morrill Then came two crews of the United States life saving service the naval militia of Illinois which included hundreds of men who fought in the navy during the war of 1898 the Naval Reserve Veteran association members of the Sons of Veterans the Boys' Brigade the ex-Prisoners of War and then the National Association of Naval Veterans altogether about 5,000 men

Besides the revenue cutters Morrell and Fessenden and a fleet of excursion steamers it had been planned to have the large fleet of the Chicago Yacht club included in the parade from the lake front off Jackson Boulevard to Lake Michigan where the naval battle took place, but the breeze of the morning died away and hardly a breath of air was stirring during the afternoon, so this part of the programme was necessarily abandoned The government vessels towing a string of barges filled with detachments from the Illinois naval reserve and gaily decorated with flags and streamers and the excursion boats—loaded with sight-seers, made an imposing appearance as they slowly steamed out of the harbor and headed [illegible] off Lincoln park about 4:30 p m and then in sight of tens of thousands of [illegible] of the park the revenue cutters with their blue jacketed crews working the rapid fire guns of the two vessels went [illegible] in a sham fight

The evolutions exemplifying the workings of two fighting ships in battle lasted for half an hour and at their conclusion the fleet slowly steamed back to the harbor

The end of the naval fight off Lincoln park closed the official programme of the encampment for the day, but all over the city in various halls and in all the hotels there were reunions of regiments almost without number and fraternal greetings of all sorts and descriptions One of the leading affairs of the night was the banquet of the Iron Brigade which was held at the club house of the Chicago Athletic club at 6:30 The speakers were Speaker D B Henderson Senator Burrows of Michigan Governor Scofield of Wisconsin Commander-in-Chief Shaw of the G A R Governor Mount of Indiana Comptroller of the Currency Dawes and General Bragg

James Whitcomb Riley recited a poem

A meeting of the National Association of Ex-Prisoners of War was held in the Coliseum tonight which drew a large crowd—an attractive programme being rendered The address of welcome was delivered by Mayor Harrison Speeches were also made by Governor Stone of Pennsylvania Senator Penrose of Pennsylvania and General John C. Black of Chicago

While the old prisoners of war were renewing old friendships at the Coliseum [illegible] Brigade were holding forth at the Athletic club the naval veterans who had been given the honors of the day were having a dog watch of their own in the auditorium of the Y M C A building

A reunion of the veterans by states will be held tomorrow this being a feature of the encampment which has never been attempted before There will be 26 of these state reunions The programme tomorrow includes the [illegible] Grand Army, which is expected to be the largest parade ever held by the organization since it came into existence Fully 40,000 men, all members of the Grand Army will be in line according to the statement of the officials in charge of the preliminaries and it is estimated that it will require over four hours for the line to pass a given point

President McKinley, if he could have come to the encampment would have been the central figure at the head of the parade, and a pageant of patriotism had been arranged to accompany him in the form of guards of honor, battle flags and heralds

The contest for the honor of entertaining the next annual encampment of the G A R promises to be a very lively one The preponderance of sentiment apparently favors a western city and both Salt Lake and Denver have delegations on the ground working hard to secure the encampment of 1901 In the contest this year some things besides geographical considerations are apparently having much weight with the veterans The passing of the years has made it much more difficult to bear the fatigue of a march under the blazing sun than it was in [illegible] and many of the most prominent members of the organization are pronounced in favor of the selection of a city for the next encampment where reasonably cool weather may be expected This sentiment will undoubtedly have much to do with the selection and it is considered not unlikely that the next annual encampment may be held west of the Mississippi river. Commander in Chief Shaw is quoted as favoring "any place where they may have cool weather

It is expected that the election of Major Leo Rassieur of St. Louis as commander in chief will be unanimous, there being no other candidate.

WOMEN TO CARRY REVOLVERS

Movement to Protect Themselves From Footpads W. H Gilstrap Placed Where He Will be Good

Denver Bureau
Colorado Springs Gazette.

Denver, Aug [illegible]—Secretary W H Brisbane, of the Republican state central committee who has charge of arrangements preliminary to opening the headquarters for the campaign in this city expects to occupy rooms in the Windsor hotel which have been engaged temporarily. The need of headquarters has been pressing for the purpose of directing the campaign work which has been accumulating and providing for a place to which members of the party may appeal for information. Permanent headquarters will not be opened until after the state convention and installation of the new committee.

It is probable that Senator Fairbanks of Indiana, will not be heard in Denver but will speak either at Colorado Springs or at Pueblo. This is due to the impossibility of securing a suitable place for the meeting. Thousands would turn out to hear the celebrated Indian [illegible] in Denver and there is [illegible] except the Broadway and Tabor theaters both of which are engaged for state conventions at the time set for Senator Fairbanks to be here, September 10.

Will Colorado become a manless state?

This is the unanswerable but dangerous question that confronts the state [illegible] public construction.

Reports of births and deaths now being gathered [illegible] that two girls are born for one boy and that deaths among the males exceed female deaths by the proportion of 3 to 1. Dr [illegible] of the board is unable to explain the increase in female over male births. The large mortality of males is due principally to the fact that more men than women meet violent and accidental death and that more men consumptives come here from the east than women invalids, the percentage of the latter coming here being very small.

With the object of protecting themselves against holdups and highwaymen a number of women at the state house have decided to carry revolvers when they are out after nightfall in the future. The recent hold ups with violence to women in some of the best parts of the town and the fact that [illegible] several evenings ago compelled to [illegible] private characters [illegible] movement being inaugurated.

It is expected that the idea will spread so that after a while it will be dangerous to the life of the footpad that attempts to stop a Denver woman on the street.

James Devore who was arrested last week on a warrant sworn to by Mrs Jane Perry who charged him with theft was discharged by Justice [illegible] this morning. It developed that Devore had not threatened the life of Mrs Perry and the only reason the woman had him arrested [illegible] trying to locate her daughter [illegible] the girl.

William Henry Gilstrap is safe from harming any young girls for a year or two at least. This morning Justice Mullins decided that Gilstrap should answer to the district court for the charges which had been preferred [illegible] bonds [illegible] $5000. There were four charges against Gilstrap and he was accused of having criminally assaulted four young girls.

The preliminary examination of Thomas Gordon the old man who shot Geo W Cross in the leg on the night of August 6 was begun in Justice Mullins court this morning. The trouble between these two men was over the attentions being paid to a woman by the name of Mrs Carrie Green. Only a small amount of testimony was introduced and the case was continued until Thursday [illegible].

Bishop C H Fowler of the M E church arrived in Denver today on his way to [illegible] where he will preside over the Methodist conference that convenes there this week.

The guards and guides at the state capitol will be glad when the rush of tourist travel is over. It is a time honored custom of all people to go to the top of all state buildings when on touring trips.

Every tourist has been to the top of our state house so say the guides. Any sunny afternoon's look toward the large pillars near the top will reveal a dark streak around the dome that upon closer inspection turns out to be humanity. It is estimated fully 600 people go to the top of the building every day.

A number of sneak thieves of the city have been adopting the plan of roof stealing of late. They climb the fire escape ladders to the roof and then effect an entrance through the skylight. The Morris Hardware and Iron Co have been the heaviest losers by this means of stealing.

FLORENCE

CITY COUNCIL DONATES $200 TO LABOR DAY CELEBRATION

Affray in Which Neil Mansfield Seriously Carves [illegible]—The Methodists Hold District Conference

Florence Bureau
Colorado Springs Gazette

Florence, Aug 27.—At tonight's session of the city council it was decided to donate $200 to the subscription list for the funds for Labor Day celebration. This amount will bring the total sum raised up to $1,600. The citizens of Florence will be disappointed tomorrow morning on learning that the question of passing the sewer ordinance for the construction of the sewer system to cost $[illegible] was tabled for next Friday when a special meeting will be held when it is expected that a decision will be made. The city council has been [illegible].

A cutting affray occurred in a lumber yard near the Rio Grande tracks at 6 o'clock this evening, when Neil Mansfield badly cut [illegible] Young on the right arm and made an ugly gash on the right side with a jack knife. Mansfield tried to get at a negro woman when Young interfered and was cut. He was taken to a physician's office where the wounds were dressed at 8 o'clock. Both men are in jail. Mansfield is from Canon City. The cause was jealousy. Young is in a serious condition and blood poison is feared.

The Pueblo district Methodist conference was held in this city today with Presiding Elder J. F. Harris of Pueblo in the chair and Rev. [illegible] of Independence was secretary. There were [illegible] delegates present from the Pueblo [illegible] men to attend the session of the annual [illegible] which begins Wednesday morning. Bishop Fowler of Minneapolis will preside and make appointments for the whole state. The principal business today was issuing the renewal of licenses to exhorters and local preachers and the recommendation of candidates for admission into the annual conference. In the evening Rev. Mason of Cripple Creek delivered an eloquent sermon on "The Resurrection."

It seems as though Florence will in a short time possess a more widespread oil territory. The land in question lies on [illegible] about [illegible] miles [illegible] of Florence [illegible] Trenton rock there and is showing samples of it to experienced oil men and they pronounce it the genuine article. When broken the scent of oil was very pronounced. The existence of Trenton rock almost assures the existence of oil in that neighborhood. It is Mr [illegible] intention to interest capital and begin drilling operations, he having 320 acres adjoining the territory where this rock was found. Upper Hard Scrabble has not been prospected as yet, still the different companies are expanding their territory in that direction.

The United Oil company has been prospecting in the South Park country for oil and find from surface examinations that the indications are most promising. Samples of rock filled with oil were brought back by one of the [illegible] and [illegible] indication is that oil exists in abundance in that earth [illegible] territory.

P. B. Fisher & Co of this city have uncovered a five foot vein of high grade [illegible] and a [illegible] in the Silver Cliff district. A [illegible] shaft has been sunk on the claim and the bottom is apparently covered with high grade ore.

Operation in the vicinity of the [illegible] place on Newlin creek have been necessarily [illegible] owing to the inability of the company to secure drillers. The [illegible] Oil company's former driller, J. J. Hessel, having gone to [illegible] county this company has sent to Pennsylvania for [illegible].

Two Miners at [illegible] Buried by a Cave-in

Special to the Gazette

Boulder, Aug 27.—A telephone message from [illegible] received here today tells of the narrow escape from death of two miners, Alfred [illegible] and [illegible] of that city.

They were engaged in taking out some of the [illegible] in the shaft of the [illegible] mine when suddenly the rock gave way and they were buried beneath an immense quantity of stones and dirt.

The accident occurred at 7:30 a m and a rescue party was immediately set to work. By 10 o'clock they had reached the men and found to their relief that [illegible] from faintness neither man had suffered the slightest injury.

DEMOCRATS OF OURAY

Split in Convention on Passage of Resolutions

BARNETT FACTION WITHDRAW

Contesting Delegations to State Congressional and Judicial Conventions—Populist Convention

Special To The Gazette

Ouray, Colo, Aug 27.—The Democratic County convention was called to order at [illegible] o'clock today by Chairman Omland and upon a vote being taken H A Omland was elected as temporary chairman by a vote of twenty-seven to sixteen, thus testing the vote of the Barnett and Getty faction who voted for Judge W Rathmell.

The report of the committee on resolutions censured the methods followed at the primaries on Friday and offered a new set of rules and regulations which the Barnett faction opposed. Upon their adoption after a spirited debate and much feeling being shown the entire Barnett faction walked out and met in the County court room.

After the withdrawal of the opposing faction the convention elected seventeen delegates to the state and congressional conventions and eleven to the judicial convention at Montrose.

The split in the party is the first in the history of its organization here and bids fair to continue and throw the balance of power into the hands of the Republicans. George T Bradley, of the Revenue was the leader of the delegation opposing Judge Stevens for re-nomination and favoring the nomination of John T Barnett for district attorney. The bolting delegates passed resolutions denouncing the action of the majority in passing resolutions changing the method of conducting [illegible] primaries by giving the chairman of the county central committee power to appoint another judge and [illegible] usurping and disorganize the Democratic party in Ouray county and driving from the party by insult and unfairness life long Democrats because they have dared to express their choice of delegates to represent them in said convention.

The convention then elected contesting delegates to the state congressional and judicial conventions.

The Populists held a county convention this afternoon about fifteen delegates being present. Delegates were elected to the state judicial and congressional conventions.

Mr and Mrs J P Cassedy respectively manager and clerk of the Ridgway Populist, met with a severe accident last evening while riding towards Ouray in a buggy which was upset three miles this side of Ridgway owing [illegible] throwing the occupants violently to the ground breaking [illegible] of Mrs Cassedy and the collar bone of her husband. They were discovered by Ross Shultis of Ouray who took them to Ridgway but the surgeon of that town being absent they were brought up on the train at seven o'clock and placed in St Joseph's Hospital and the injured members set by Dr Hamilton Fish who apprehends no fatal results.

Geo W Vallery, J. L. Mathews, A. B. Smith and F. P. White officials of the C. B. & Q. R. R. arrived in the city on last evening's train and departed for Telluride this forenoon.

TRINIDAD

Special to the Gazette

Trinidad, Aug 27.—On Senator Bor[illegible] return from Denver this week was announced that the name of Judge J. C. Gunter would be presented to the Democratic state convention for judge of the supreme court. Judge Gunter has a splendid record as district judge and stands high as a lawyer and if this place is to be filled by a Democrat he is the right man. The announcement clears the atmosphere considerably in regard to the Democratic judicial ticket. Judge Gunter's closest friends have been about equally divided in urging him to run for district judge and in urging him to keep out of the race.

The field is now clear for the nomination of County Attorney W B Morgan for district judge without opposition. This will probably be a contest for district attorney. A. P. Anderson seems to be in the lead with the understanding that Morgan is to run for judge. F. C. Nowells of Lamar is a candidate and will probably come in with some strength from the outside counties but it isn't likely that he will receive much consideration as this county has a majority in the convention.

P. H. Murray will also have to be reckoned with in connection with this nomination. If he should neither be nominated for attorney general which would be impossible with [illegible] on the state ticket nor for the legislature to succeed himself then he will no doubt want to be district attorney.

The Democratic county central committee has made a recommendation to the board of county commissioners that Burney B Sipe be appointed coroner to fill the vacancy caused by the death of his father R G Sipe. In the event of this appointment Burney will likely be [illegible].

J P LaBelle has purchased 80 acres more of coal land adjoining his mine near Sopris.

Mr and Mrs Barney Maralino have started to Paris. After seeing the exposition they expect to visit their old home in Italy.

WITH THE POLICE

A man who gave his name as James [illegible] yesterday morning to answer to a charge of drunkenness. He pleaded not guilty and was given a hearing. Last Sunday morning a message was [illegible] headquarters from a Denver and Rio Grande conductor in charge of a train which [illegible] stating that a suspicious character had boarded his train and asking the police to be on the lookout for the man. When the train arrived in this city Moore was arrested and taken to police headquarters. He stated that he had been adjudged insane and offered that as an excuse for his strange actions. After the trial yesterday morning Police Judge [illegible] decided that the man was not insane but was suffering from the result of a several days spell of drunkenness and fined him $5 and costs. The fine was suspended however and he was permitted to leave the city.

Horace Gray and John Sim[illegible] appeared in court to answer to charges of unlawful habitation. They pleaded guilty and were fined $10 and costs. They paid their fines and were released.

Thomas Mathews was found guilty of [illegible] and fined $5 and costs. He couldn't pay the fine and was committed to jail.

G. H. Bond was arrested yesterday morning on South Weber street by Officer Hughes for [illegible]. He pleaded guilty to the charge [illegible] in police court and was fined $1 and costs. The fine was suspended during good behavior.

[illegible] last week for keeping a disorderly house on South Cascade avenue was given a hearing yesterday morning in police court. He was found guilty and fined $[illegible] and costs. The fine was suspended on a promise to go out of business at the old stand.

Joe Miller, [illegible] and [illegible] Carroll who were arrested last Saturday afternoon in the Antlers park for being drunk appeared in court yesterday morning and were fined $5 and costs. They were committed.

IN JUSTICE COURTS

In Justice Ruby's court yesterday a money demand suit entitled [illegible] vs Needs was filed. The plaintiff seeks judgment for $40. The case was set for hearing on September 4.

In the case of Miller vs [illegible] the court rendered judgment in favor of the plaintiff for $91.60.

In Justice Wing's court yesterday a money demand suit was filed by S. J. Garrison against Lucius Hillman and wife for $[illegible]. The case was set for September [illegible].

The case of Sessions vs. Cole was [illegible] until September [illegible] at 10 o'clock.

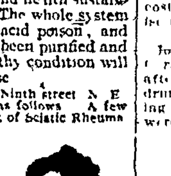
Rheumatism

Rheumatic pains are the cries of protest [illegible] joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison, and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs James Kell of 707 Ninth street N E Washington D C writes as follows: A few months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington who is also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well. After having it filled twelve times without receiving the slightest benefit I declined to continue his treatment any longer. Having heard of S. S. S. (Swift's Specific) recommended for Rheumatism I decided almost in despair however to give the medicine a trial and after I had taken a few bottles I was able to hobble around on crutches and very soon thereafter had no use for them at all. S. S. S. having cured me sound and well. All the distressing pains have left me, my appetite has returned and I am happy to be again restored to perfect health.



SSS the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

"Guarantee of Quality"

Stevens on a photograph is a "guarantee of quality." Stevens' views are not cheap views.

Quality generally costs. But by buying several thousand at a time, we are enabled to sell them at unprecedented prices.

For instance, we bought one lot of 6000 of the new "Cyko" photographs. As a result, we are selling them at 10c each. We have sold more than 3000 of them in a little over three weeks. They are the talk of the town.

Again, we bought 650 of the new combination Sunrise and Set photographs last week, and, as a result, we are selling them for 50c instead of 75c, as heretofore.

We control them.

REPUBLICAN RALLY AT RYE

Police Magistrate Makes a Good Record for Himself—Denver and Rio Grande Laying New Steel

Pueblo Bureau
Colorado Springs Gazette.

Pueblo, Aug 2[illegible].—Shortly after 1 o'clock this morning Frank Panthina a switchman of St Louis Mo was held up in the railroad yards near the Santa Fe round house. Panthina was badly beaten about the face and head, one of his teeth being knocked loose and he being rendered insensible for some time. When he recovered consciousness he found that $38 had been taken from his clothes. His assailants he says were two negroes. The unfortunate man was taken to the Sisters hospital in the police ambulance but after having his wounds dressed he went his way. The police have so far been unable to find any clues to the hold ups.

At a meeting of the directors of the Rover Athletic club held this evening it was decided to give an entertainment at Rover park the afternoon of Labor Day. A ball game between the Robbins Colorado Springs nine and a Pueblo team is one of the chief features. A five mile handicap bicycle race open to all amateurs belonging to the club will be pulled off for the club championship. Several handsome prizes have already been offered. A horse show embracing all sorts of horses will be a prominent feature. Will Hodkinson, Pueblo's crack trick rider, will do fancy stunts on his wheel.

An enthusiastic meeting of the McKinley and Roosevelt club of Rye was held last Saturday night. A [illegible] number of new members put their names down on the roll. Of those who are now members of the club fully one half are women. Patriotic songs and speeches made up the programme for Saturday evening and the gathering was in every way the largest and most enthusiastic yet held. Addresses were made by O A Rust and J L Crank, the latter taking for his subject Imperialism and Militarism [illegible] Smith made at a Democratic meeting in Rye some weeks ago. He showed in unmistakable terms the [illegible] the Democrats [illegible] that they held exactly the opposite position fifty years ago. When Well-known Colorado Springs People Tell it So Plainly

When public endorsement is made by a representative citizen of Colorado Springs the proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

Mr David DeGraff of 516 North Weber street says: "If I did not find that Doan's Kidney Pills keep kidney complaint in check if they had not helped me from the first dose I took I never would have bought some half-dozen boxes at the Smith Wilson Drug Co's store [illegible] street, neither would I have given two boxes to a friend of mine interested in [illegible] property, nor could I be induced to recommend [illegible]."

Remember the name—Doan's—and take no substitute.

FORGING AHEAD OF THE ORDINARY

Any Man Who Would Excel in an Undertaking Must Be an Unusually Diligent Student—For the Past Ten Years Dr Ellison Has Made It the Special Business of His Life to Study and Treat Consumption, Asthma, Catarrh Hay Fever and Chronic Diseases of Men Women and Children—That He Is Succeeding Is Beyond Question of Doubt—This Is What We Call "Forging Ahead" as a Physician

The physician who reaches the highest place in his profession is the one that is the closest student of nature's laws and he who constantly applies himself to that branch of the profession he has chosen as a specialty. When Dr Ellison began the study of medicine as a chosen profession it was with a full determination to so thoroughly apply himself that without boast or brag he could offer to the sick a treatment of excellent merit. About ten years ago he became fully convinced that no one man could become proficient in the treatment of both acute and chronic diseases, and for this reason he decided to treat consumption, asthma, catarrh, hay fever and chronic diseases of men, women and children exclusively as a specialty, and during this time he has made a careful and persistent study of these diseases and the most effective method of treating them. During the past two years of his residence in Colorado Springs hundreds have learned the fallacy of treating for chronic diseases with [illegible] practice by being cured by Dr Ellison after ordinary methods had signally failed. People who suffer from pulmonary tuberculosis [illegible] fail to make use of the doctor's [illegible] sulphur treatment. Of about two thousand cases treated only three have died in the past two years. This treatment can be taken at your home. Office 24 North Tejon street, over [illegible] grocery store, where the doctor can be consulted free. [illegible] mornings from 9 to 12, afternoons from 2 to 5, evenings from 7 to 8 o'clock.

SPECIAL NOTICE Dr Ellison gives free consultation and examination every day except Sundays, from 11 to 12 a. m. and from 4 to 5 p. m.

BOWLING TOURNAMENT

The midsummer bowling tournament at the Town and Gown club, which commenced on the first of May and was postponed until fall, will be continued during the months of September, October and November, starting September 1.

Two prizes have been offered, one for men and one for women, upon the following conditions:

The person obtaining the highest average of any 25 strings bowled by him or her during the contest, shall be the winner of the respective prize, provided that no contestant shall be eligible unless he or she shall have bowled at least 25 strings.

All scores must be deposited in the box provided for that purpose not later than the day succeeding that on which made, and must be attested by a member of the club.

Scores made while this tournament was before in progress can be counted by any contestant in the 25 scores handed in.

The tournament will be a handicap one and members of the club to be eligible for competition must hand their names to either Messrs. Jewett, Williamson or Scott, or make their entries by subscribing their names to this list on or before October 1, 1900.

Members who entered the postponed tournament will be considered as having entered in this without further notice.

Rules of bowling must be observed, and contestants running over the line will be penalized.

Handicaps will not be announced until after the completion of the tournament.

Monthly members are not eligible for this competition.

TENNIS TOURNAMENT

A tennis tournament, open to residents of Colorado Springs and vicinity, will be held on the courts of the Town and Gown club, beginning Wednesday, September 5.

Singles and doubles will be played, with an entrance fee of $1 for each player in each event.

Play to commence at 4 o'clock p. m. each day.

Best two out of three sets in preliminaries and finals.

Suitable prizes will be given.

Entries can be made at the club house or to any member of the committee on or before Tuesday, September 4.

WHAT IS ANTI-IMPERIALISM?

MR. BRYAN in his speech at Indianapolis has done a great deal to convert theory into material fact so far as the paramount issue of the Democratic platform is concerned. When the platform declares that "the burning issue of Imperialism growing out of the Spanish war involves the very existence of the republic and the destruction of our free institutions," that is a statement of foolish prejudice or ignorance that can find no support in existing conditions and no warrant in the beliefs or desires of any considerable part of the American people.

But when Mr. Bryan declares that if elected he will immediately summon congress in extra session to declare in favor of Filipino independence and a guarantee of non-interference by foreign nations, we are confronted by a definite policy of action which must command immediate consideration. We are no longer considering absurd theories but a definite proposition of what the Democratic candidate intends to do.

Mr. Bryan has done the country a good service in limiting and condensing the "paramount issue" to something that can be clearly expressed and easily understood. The Democratic candidate pledges himself as follows:

"If elected I shall convene Congress in extraordinary session as soon as inaugurated, and recommend an immediate declaration of the nation's purpose—first, to establish a stable form of government in the Philippine Islands, just as we are now establishing a stable form of government in Cuba; second, to give independence to the Filipinos, just as we have promised to give independence to Cuba; third, to protect the Filipinos from outside interference while they work out their destiny, just as we have protected the republics of Central and South America, and are by the Monroe doctrine pledged to protect Cuba."—Mr. Bryan's speech of acceptance.

Are the American people in favor of the course proposed by Mr. Bryan? We do not believe that they are.

In the first place the American people does not look with favor upon extra sessions of congress and does not see in the present situation in the Philippines any emergency requiring the assemblage of the lawmaking body in advance of its regular time of meeting.

Farther than that the policy outlined by Mr. Bryan is unreasonable, unwarranted by the facts as they are known to us and is direct violation of the national honor, the national character and the national interests.

The following points are submitted merely in outline:

The establishment of "stable government" to any reasonable degree involves a violation of the alleged natural rights of the Filipinos to a degree inconsistent with the theory of government held by Mr. Bryan and his followers.

The withdrawal of American authority and army from the Philippines would surely lead to civil strife and native attacks upon foreign interests that would be directly provocative of interference by foreign powers.

The extension of the Monroe doctrine to cover the Philippines would involve the maintenance in those waters of a fleet sufficient to prevent Germany, France, Great Britain, Japan, Russia or any other nation or all of them combined, from interfering to prevent or to punish the murder of their citizens and the destruction of foreign property in the islands.

"For three quarters of a century," says Mr. Bryan, "the Monroe doctrine has been a shield to neighboring republics, and yet it has imposed no pecuniary burdens upon us."

But the South American republics are close at hand, they are occupied and controlled by people who are of European descent, with knowledge and practice in the art of self government and who have preserved in their international relations, through all their civic strife, a fair measure of the forms of civilization in international dealings. The Philippine islands are inhabited by tribes of different race and language. Many of them are savages; some of the most intelligent declare that foreign control is the only possible scheme of good government for the islands, without experience in representative government, and Aguinaldo is, or was, a half blood Chinaman, who murdered his associate General Luna, and sent Captain Arguelles to prison for twelve years for telling the truth about the United States.

To guarantee independence to the Filipinos free from European interference, is to commit the United States to a most dangerous experiment and one which, if persisted in, will certainly involve us in war and international complications of the gravest sort.

The United States is pledged to Spain, to foreign powers, and to the people of the islands to preserve civilization there from anarchy and savagery. Mr. Bryan recognizes this when he includes in his programme as an initial measure the establishment of a stable government. But every indication given by those who if Mr. Bryan's purpose is carried out, will infallibly assume the direction of affairs in those islands, goes to show that they will not and cannot maintain any form of government except that of Malay despotism of the worst sort, if left to their own free will. Under the Republican scheme the people of these islands will be given the largest measure of self government consistent with their welfare and our duties. That is all we have a right to give them and all they have a right to expect.

The interests of the American people and especially those of western states, require that we should hold the Philippines long enough to determine with greatest care what our relations to them ought to be. It is the opinion of many persons most competent to judge that they are a national possession of priceless value, and one that will be the basis of national growth and prosperity in the coming century far beyond our present ideas. There is a possibility that this is so. Good judgment, common sense and national dignity are opposed to the proposition to call an extra session of congress to throw away a national treasure that we have not yet examined.

Finally, under the Democratic doctrine that the constitution follows the flag these islands are already an integral part of the United States; they are under the constitution, and their people are citizens of the United States with the same privileges and rights as the people of Alaska or New Mexico. The Gazette does not believe this absurd doctrine, but the Democratic party is committed to it, and yet the Democratic president, if elected, proposes as the first step after taking an oath to defend the constitution, to summon congress to traitorously break down and destroy the constitution in an integral part of the national domain, and to turn over the authority of the nation in that part of it and over those citizens to men now in arms against our authority and endeavoring to destroy our constitution so far as those islands are concerned, by force of arms.

It is a striking example of the limits of free speech in this country that a party or a presidential candidate should dare to make such a proposition, but we have no fear but that the result will fully demonstrate that the American people is wise enough to decide its affairs in accordance with national honor, good sense and the interests of our people.

ANOTHER DEMOCRATIC PATRIOT.

HONORABLE Charles Denby is a Democrat.

As such he was appointed United States minister to China.

As such he was given a place on the first Philippines commission in recognition of the fact that this commission was representative of the American people and not of a political party.

When Mr. Denby speaks of Philippine affairs he speaks with a knowledge gained from personal observation and with the advantage of a man whose long experience in the east qualifies him to judge of people and circumstances there with more than usual accuracy and trustworthiness.

And it is this lifelong Democrat, this man of unimpeached honor, this statesman particularly conversant with Asiatic affairs, who charges that Mr. Bryan, the Democratic candidate for president, intentionally secured the ratification of the peace treaty ceding the Philippine islands to the United States, in order to create an issue of imperialism by means of which he and his party might regain the chance of political success.

It is this Mr. Denby who says that the Democratic programme would be in violation of our national honor and national interests and that President McKinley, the worst abused of all our presidents, has proved himself equal to all demands made upon him and eminently deserves re-election.

Mr. Denby is from Indiana, where his words will have especial weight in influencing the votes of other Democrats who are not willing to commit the country to the policy outlined by Mr. Bryan and the Kansas City convention.

ALL TORN TO PIECES.

THERE is hardly a county in the state where the Democracy is not torn by feuds and dissensions.

To fuse or not to fuse, is the main question, and the decision of the Democracy upon this important topic is largely complicated by a doubt as to whether anything substantial remains to fuse with. The Democracy is not giving offices away from motives of sentiment, and before admitting its former partners to a share in the profits it has to be showed.

In Arapahoe county the quarrels of the leaders are a matter of common knowledge and the decision of the peace committee was very far from being a settlement of them.

In El Paso the question of fusion is still an open one. There are practically no Silver Republicans left here, but the Democrats have about decided that the Populists are not worth bothering about, and a straight Democratic ticket is probable.

Down in the San Juan country the Democracy is split into hostile fragments by a quarrel over the offices, and so it goes all through the state.

On the other hand the Republican party is united and enthusiastic, its former members are returning in large numbers as a result of the Democratic attitude towards expansion, and the prospects for success in the state are good and are continually growing better.

The Denver & Rio Grande Railroad company announces a special excursion to the San Juan country. The date selected is September 5th, and the very low rate of $20 has been made from Colorado Springs, Denver and Pueblo. The tickets can be purchased for this excursion to Durango, Silverton, Telluride, Rico, Ophir and all stations on the Rio Grande Southern railroad, which are available either via the line through the Royal Gorge over Marshall Pass and through the Black Canon of the Gunnison or via La Veta Pass, Toltec Gorge and Durango, going one way and returning the other, as the passenger may desire. This excursion affords an opportunity to see the most beautiful scenery in the state and to visit some of the richest mining camps. A large attendance is certain.

The game laws of the state should be administered with absolute impartiality. The poor ranchman who depends upon his rifle for a welcome change of diet in the fall has just as good a claim to consideration as the hunter from New York or Chicago who comes here to enjoy a few days or weeks of "sport." So long as there are deer in the hills, and they will be there always under proper restrictions, they belong to one man as much as to another, and all should have an equal chance.

The first opera house audience of the season met in a newly decorated and greatly improved auditorium. Manager Nye and the opera house company deserve congratulations on the superior attractiveness of the house and their regard for the comfort of their patrons. New chairs are promised in the near future and will be especially welcome.

Six million pounds of beef on the hoof is a large order even for Chicago, and it comes from a new customer the Russian government. The steers to fill it will naturally come from the western ranges, and the order gives fresh illustration of the importance to the west of the expansion and development now proceeding in eastern Asia.

The speech delivered in Santiago by General Wood will certainly have a good effect in convincing the Cubans of the good faith of the American government in its dealings with the people of the islands. It will not however, have as good an effect upon the Democrats of the United States.

It may suit the purposes of some news writers to call the man arrested for threatening the life of Bryan, an anarchist, but a madman would come nearer the true designation. There is no more reason to believe that the death of Mr. Bryan would promote anarchy than that anarchy would promote reform in government.

Chicago promises to send the largest crowds of the season to Colorado in the latter part of the present week. Where is the man who said there wouldn't be many people in Colorado this summer?

With Senators Jones and Stewart both enlisted in the fight for McKinley, Prosperity and Expansion, do we hear any reason why Nevada should not be added to the Republican column?

Colorado's vote ought to be cast unanimously for Pacific expansion. There is nothing else that could be of so great advantage to her material interests.

Of course Mr. Bryan accepted the Populist nomination but it is noticeable that he handled it with anti-imperialist gloves.

FROM THE PRESS OF THE NATION.

Some of Bryan's Prophecies.

(St. Louis Globe-Democrat.)

Democratic papers are much pleased with what they call the eloquence of Bryan's speech of acceptance at Indianapolis. It may or may not be there, according to the views entertained of the relations of sound and sense, of truth and moral obliquity. In any case, practical people demand more from a candidate for the presidency than fine words. Mr. Bryan announces his policy as to the new possessions of this country. He bases it upon the argument that the American people have developed an imperialistic spirit, and that to continue the present administration will lead to the ruin of free institutions. But what are Bryan's qualifications as a prophet? He has attempted to read the future before, and with what result? Every one of his hundreds of speeches in the canvass of 1896 contained predictions, and the strange part of it is that not one was realized, even by accident. His prophecies of four years ago are on record as a clean score of what never came to pass. It was the reverse that happened in every case. In this instance mental students would be justified in looking for an inverted power of foresight, a quality of judgment that goes straight to the wrong mark.

As he swung rapidly on his circuit of 18,000 miles in 1896, making nearly 1,000 speeches, Bryan declared that unless free coinage at the old ratio prevailed prices would continue to fall, the paralysis of business extend; and the complete ruin of the people ensue. At Newton, Ia., he said the gold standard was as certain to lower prices as a stone thrown in the air is to fall; at New Haven that it would starve everybody except money changers and money owners; at Newark, O., that it would increase the number of citizens in distress; at Minneapolis that it would destroy the hope of the toiling masses and increase the number of idle men, at New York that it would make it harder and harder for the farmer to live, lessen the safety and solvency of savings banks, cut down the income of salaried men and injure investments in railway and other stocks. At Monmouth, Ill., he said the gold standard would make it necessary to close the public schools. In the book published after his defeat he repeats that "we are on a declining plane; that we are going down; and that under the gold standard [illegible] with a resulting depression of prices.

At the manufacturing towns of Springfield, O., and Flint, Mich., Bryan asserted in speeches in 1896 that the gold standard would injure or destroy the making of agricultural implements, which were $5,413,075 in 1896 and $16,094,886 in 1900, while the exports of cars and carriages increased from $2,382,714 in 1895 to $5,364,691 in 1900. In the speech at Madison Square Garden on August 12, 1896, Bryan said the gold standard would compel depositors in savings banks to withdraw their money to pay living expenses. The statement was absolutely false. The deposits have grown enormously ever since the election of that year, and are larger than ever before by hundreds of millions. At Minneapolis Bryan made a speech to ladies, in which he assured them that the gold standard would render it impossible to pay off the mortgages on their homes. In his own state of Nebraska the cancellation of mortgages has been phenomenal. At an earlier date Bryan's predictions were of the same [illegible]. In a speech in congress on August 16, 1893, he said that, deducting the amount of gold used in the arts, the world's supply of gold was only $84,000,000 a year, and that "without silver the sum of metallic money would remain stationary, if not actually decrease from year to year." The world's production of gold alone is now nearly $400,000,000 a year. What are you giving the country, Mr. Bryan? It knows what you gave it in former years.

Chinese History Repeating Itself.

(Boston Transcript.)

Even though the United States government contents itself with demanding and exacting from China adequate reparation for the injuries done to American citizens and property, it is not in the least inconsistent with the position hitherto announced that we should join with the other powers in demanding that the empress dowager be deprived of influence and that a new ruler be selected who will not be hostile to European interests. In fact, such a position would strengthen our stand against any partition of China and against any war of conquest carried on by a European nation. The Russian, German and French governments are less likely, in view of this stand toward China to take the matter into their own hands absolutely and initiate a war of revenge. Whatever may be the outcome of diplomatic negotiations, the opening of the ports of China to the commerce of the world is likely to be insisted upon, and trade with the interior of China for all the nations must be one result of peaceful negotiations. But to enforce the payment of an indemnity merely and then retire from China would not be conclusive. The United States is likely to require guarantees that in the future opposition to foreigners shall cease, and in view of the latest messages received from Minister Conger, this can only be brought about by inducing the Chinese to make a change of rulers.

To take part in such an extra-territorial proceeding however, is not inconsistent with our past record in dealing with China. Commodore Tatnall, although nominally neutral, rendered assistance to the British in the passage of the Ta-ku forts in 1859 which has never been forgotten. When the Anglo-French forces in 1860 succeeded in getting an allied force of 16,000 men through the country from Tien-tsin to Peking, they found a condition which is somewhat akin to the situation today. The emperor, Hienfung, had fled from the capital and left his brother, Prince Kung, in charge. [illegible] upon entering the capital, found that to destroy Peking would be to forever discredit the Manchu dynasty in the eyes of its subjects. The Tai-ping rebels were in revolution, and the foreign governments could not afford to countenance their efforts or throw China into anarchy. The allies therefore made an arrangement with Prince Kung, whereby they were to enter the capital quietly, retiring after their mission had been completed. In Peking the new treaties were ratified whereby Tien-tsin and other ports were opened to the commerce of foreign nations; and Kowloon on the mainland opposite Hong-kong, was ceded to the British. One of the Tartar palaces was set aside for the British legation, and it is this same place which is now under the guns of Ta-ping-heng. The emperor was punished for his repudiation of the treaties by the burning of the summer palace about eight miles from the city. This closed the movement of the allied forces at that time, and the results accomplished showed the futility of carrying the war further than Peking.

If this history is to be repeated, however, it would be well for the governments interested to avoid the chances of a repudiation of treaties similar to that which precipitated the war. The international war of 1857 was brought about nominally by the seizure of a [illegible] ... the captain of the vessel admitted that he had no right to use the flag. The efforts of the government were taxed to overcome the Tai-ping rebels in the Yang-tse valley. The war succeeded in its real purpose, which was to admit foreign legations in Peking. Unless those legations can be maintained in peace and security, hereafter, the war of 1857 and the present strife will have been in vain. With a government friendly to foreign interests, any internal rebellion in China can be suppressed, with foreign help if necessary. There should be such guarantees, however, that it will not be possible for the government, as it did in 1857, to make treaties and then when the governments return to ratify them find that the Chinese have prepared for defense and openly violated those treaties.

It now seems to be the understanding that the United States, for the best interests of China, as well as for its own security and for the guarantee of universal peace, will be ready to join in a movement which will place the government of China in new hands and remove the empress dowager from a "sphere of influence" which is only another name for a "center of trouble."

What "Imperialism" Means.

(Nebraska State Journal.)

Schuyler, Neb., Aug. 6.—To the Editor of the State Journal. Will you kindly explain what is meant by "Imperialism?" John B. Tate.

It means that President McKinley is doing the right thing in the wrong way, and that the Democratic party, needing the offices, can think of nothing else to charge against him than a desire to subvert the institutions of the republic and set up an empire. It is the charge that was made against Lincoln and Grant, and it is the charge that will be made against every coming president when the opposition runs entirely out of campaign material. It is simple and inexpensive, and is supposed to appeal strongly to ignorant and credulous voters.

Look at the situation. Two years ago the Democrats were boasting that they "forced" President McKinley to make united in support of the war. When a glorious peace was secured, Col. Bryan supported the treaty and Senator Allen, Senator Jones and others of his earnest friends voted for its ratification. The treaty made us wholly responsible for the Philippines. After that treaty was signed it became the solemn duty of the president to restore order to the islands. That duty he has undertaken in a sober and efficient manner, in the meantime making an important beginning in framing a government in which the natives are to have as large a part as their abilities and their preparation for self-government will allow. Every step has been taken in a legal and constitutional manner. Nothing has been done that does not look toward the peace of the islands and the welfare of their people.

A vivid side light is thrown upon the Democratic programme by the Nashville American, one of the foremost exponents of the Democratic faith in the southern states. "The American is for expansion," it declares. "That is already begun, and cannot be stopped. The election of the Democrats will but keep it in constitutional channels. If Mr. Bryan's plan is carried out, to establish a stable government, as we are now doing in Cuba, then give the Filipinos their independence, and then protect them—how long will it be before even the first proposition—the establishment of a stable government—can be made a reality? Five years, ten years, or longer? The two plans, the Democratic and the Republican, for five the Democrats will work under the constitution, while the Republicans have already gone outside it, and if they are victorious at the polls this time will accept it as an indorsement of their imperialistic tendencies—government beyond the law and away from the charter of government."

This is the Democratic position in a nutshell. President McKinley and Col. Bryan will do the same things, but one will do them "under" the constitution and the other is doing them "outside" of the constitution. What has President McKinley done outside the constitution? The ready answer is that he has become an imperialist. What is this "imperialism"? Again the answer comes that he has "gone outside of the constitution." And so the Democratic argument chases itself around in a circle until it becomes so dizzy that it really believes it is tipping up the country [illegible] for a Democratic landslide in November.

Democracy and Treason.

(San Francisco Chronicle.)

The constitution of the United States says that "Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort." It is coming to be necessary to consider the exact meaning of this language in order that we may determine how near certain citizens of the United States have come to the line which divides legitimate criticism from treason, and whether some of them have not passed it. It appears that among the rebel documents lately captured in the Philippines are certain letters from renegade Americans to insurgent leaders. One of them, which has been made public by the war department, is from a fellow named Leverson, whom a few may remember as an active small-bore politician of this city 18 or 20 years since, and at one time, we believe, a member of the legislature from San Francisco. In this letter Leverson denounces General Otis and his troops as "pirates upon the territory of the natives," and advises his Tagal confederates to catch one or two American officers "of high rank," and try them for "piracy," presumably, when convicted, to be hung at the "yard arm." This letter, in addition to this bloodthirsty advice, included much definite information, which, if it had been true, would have been of value to the rebels in arms.

The question is whether the writing and mailing of such a letter to an enemy in arms is giving such "aid and comfort" as would constitute "treason" within the meaning of the constitution. There is no doubt whatever that at the date of the adoption of the constitution it would have been considered treason in any civilized country, and that a person guilty of sending such a letter would have been deemed worthy of death. The letter is very silly, and of itself shows Leverson to be a trifling person, but he is the secretary of a prominent Bryan and Stevenson club in New York and his evident animus against his countrymen is unquestionably shared by those with whom he is politically affiliated. To oppose a war is legitimate. To correspond with the public enemy is a crime. James Russell Lowell was a most vigorous opponent of the Mexican war, but the author of the Biglow Papers did not correspond with Santa Anna. Adlai E. Stevenson was a venomous copperhead during the civil war, but he was never proved to be in correspondence with the rebels. If, in 1862, such a letter as that of Leverson had been captured in southern archives the northern writer, if he escaped lynching, would doubtless have been [illegible]. If he had been a southern man, writing to the northern armies he would not have escaped lynching. Whether the courts would to day hold the writer of such a letter to be a traitor the Chronicle does not know, but plain people will so consider him. And there is reason to believe that there have been letters quite as bad written to Tagal leaders from degenerate Americans of far more consequence than Leverson. And every one of them is working tooth and nail for the election of William J. Bryan.

McKesson Would Like Nomination for Judge

The El Paso Democracy is in a sorry predicament.

It don't know whether it wants to die with its boots on or to take off its boots and then die

The old question of fusion has been bobbing up in front of the Democratic leaders for quite a while now and they cannot put it down If they decide to fuse they want to do one thing and if they decide not to fuse they want to do another and so running its hand across its fevered brow it murmurs

To fuse or not to fuse that is the question

The situation is this

The district bench becomes vacant this fall and the men who are to succeed Judges Harris and Stimson are the subject for the consideration of the people The Democrats have resolved [illegible] following

If they fuse they will name Judge W P Seeds of the Teller county court and Judge L W Cunningham of the El Paso county court for the district bench and Attorney J M Brinson of Cripple Creek for district attorney If they do not fuse they will name Judge Seeds and Attorney C L McKesson for the district bench and T J Edwards of Kit Carson county for district attorney

The local Democracy does not want to fuse They think that they will do as well going it alone as they will any other way and that there is less discredit in going straight than in mixing with the Populists

Mr McKesson is seriously and strenuously opposed to fusion He believes the interests of the party would be injured by it In the meantime he is making a very shrewd and careful and quiet canvass in the interest of himself for the nomination for district judge

It is understood as settled that H H Seldomridge will be slated for the senatorial nomination and Lewis Gaylord for the legislature

Love Caused Tragedy Near Palmer Lake

One of the saddest killings that has taken place in this section of the state for years was committed near Palmer Lake shortly after dusk on Sunday night when Spencer Dick one of the best known young men in the community shot through the heart and instantly killed John Minor because of a sudden jealous passion

Jennie Hutchinson of Palmer Lake who was the sweetheart of Dick was also the victim of a shot from the weapon which he carried but owing to the fact that the ball struck a steel in her corset and glanced her injury is slight

The story of the tragedy as it is given out by the officers and by the [illegible] close at hand when the deed was committed is that Dick had made arrangements to meet Miss Hutchinson at the Rio Grande depot and take her for a drive Before his arrival there Minor came along with a rig and invited Miss Hutchinson to get in and drive with him for a few moments before Dick arrived She consented and the two drove up the road and a short distance away met Dick

Minor reined in and after a greeting [illegible]

I am going to be married next week

I guess not said Dick and drawing a revolver he shot the other young man through the heart death following instantly Immediately turning the weapon upon his sweetheart Dick fired again but the shot was intercepted and did little damage

Dick rode away to the east on his horse and at last reports had not been captured The tragedy took place just over the line which divides El Paso and Douglas counties and the Douglas county officers are in pursuit They [illegible] him and capture him before he reaches the Kansas line which is supposed to be his objective point

Brick Work Will Be Done Ahead of Time

Our contract calls for the completion of the brick work by the 27th day of October and we will beat it by 30 days or by 27 days at least said Contractor Schrader of the firm of [illegible] and [illegible] was referring to the Antlers contract

The work is progressing nicely and we are going to get through ahead of time without any trouble We pay our brick layers $5 per day and our mortar mixers $3 Our masons get $4 our carpenters $3 and our common labor $2 [illegible] these we cannot afford to place on the [illegible] incompetent men and we have none except men who are worth the money

We are not having any labor trouble now and our men will not [illegible] that we do not have any When we agreed to pay the wages that we are paying they agreed to stand by us and they will do so It has necessitated the [illegible] of the brick layers from the trades council but they withdrew and are doing excellent work Mr Haines the contractor for the St Louis Expanded Metal company who is in charge of the concrete work has had some trouble but he has stood [illegible] in all propositions and assures us [illegible] walls up he will be there with the cement and so far he is right with us

The Colorado Springs company expect to open the Antlers hotel for business on the first day of next July.

Hospital Exceeds Estimates on Its Cost

Work on the El Paso county hospital and poorhouse, now being erected on the county farm west of the city is progressing rapidly and the building is taking shape The people of the county will take interest in pointing it out to visitors—since it is a pretty building and one that will be a credit to the county

The people may not be so well pleased as they thought they would be however when they realize that the cost of the building is going to exceed by more than $8 000 that which was planned for when the work was begun The superintendent of the work Joseph Dozier estimated that the building would cost the county $12 000 and this [illegible] pected to put upon it

The work is being done by the day the county dealing directly with the men and employing Mr Dozier as superintendent At the time of the beginning of the work there was some dissatisfaction over this method of performing the work some believing that it would have been better had a contract for a specific amount of money been let but the commissioners believed that the method that was adopted would be the best

The expenditure already made the money already paid out amounts to something more than $16 000 and there remains to be done between $1 000 and $5 000 worth of work

BUTTONHOLE INTERVIEWS

Among the pleasant visitors to the city at present is Mr Prescott Toomey of the Dallas News who with his wife and children is spending two weeks in Colorado Mr Toomey represents one of the most progressive and creditable newspapers in the entire south and personally is typical of the business like institution with which he is connected

He expresses himself as delighted with Colorado and particularly with Colorado Springs I took the trip up Pikes Peak a day or so ago said Mr Toomey and I certainly regard the road as one of the greatest achievements in engineering that could be thought of

In Texas we are in the midst of Democracy and Bryanism but the News is not in it The News will not support Bryan this year but we do not expect to carry the state or even the city of Dallas for McKinley

A J Bixley pastor of the First M E church of Great Bend Kansas is a guest at the Spaulding His greatest activity aside from his ministerial duties is the interest he takes in politics and this will not excite wonder when it is told that he came from Starr county Ohio of which Canton the home of President McKinley is the county seat

In answer to the question as to what he thought of political conditions in Kansas he said Speaking conservatively to an extreme I would say that Kansas will give the Republican ticket a majority of from 30 000 to 40 000 and I should not be surprised at all if the figures would run to 60 000 You know that before the advent of the Populists in Kansas the state once gave 82 000 Republican majority The people are satisfied with present conditions and strange as it may seem Kansas farmers are absolutely getting rich I know personally of many Silver Republicans and old line Democrats who have declared they will vote for McKinley and furthermore they are inducing their former colleagues to do likewise.

MR. SEAGLE'S RECITAL

Not for a long time has Colorado Springs been privileged to hear a song recital of merit equal to that given last night at the Cumberland church by Mr Oscar Seagle The rich clear voice of this wonderful young singer made an impression on his hearers second to that of no one who has been heard in the city before

In addition to the programme which he announced Mr Seagle sang The Holy [illegible] agreed that it had never been more ably rendered in Colorado Springs

The numbers by Mrs Carrie and Mr McCombs also were exceptionally pleasing to the audience

If the same effect on an audience is to be expected when the show becomes Black Crook Sr that is produced by this vest pocket edition its future is assured

It is destined to be a howling success

It is a howling success today

Such a triumph has seldom been achieved by any show as that which was achieved by the Black Crook last night The audience was simply enchanted The first act contained some spectacles an impression of which part of the audience desired to keep so it went home The impressions will not soon fade away It was the same with the second act and the third So charmed was the audience with the third act that it took it five minutes to realize when the act was [illegible]

In the orchestral selections there was little variation during the entire evening

The following were rendered simultaneously

Violin solo
Second Violin solo
Piano solo
Bass viol solo

Lack of space (and English) makes it impossible to convey to the public any conception of what would have been seen by those who were not there had they attended

That the audience was charmed was shown by the fact that some found it impossible to get away until the show closed

All the members of the company were exceptional in some lines but two showed marked ability as contrasted with the rest These were

NUGGET'S RICH ORE

Large Shipments Being Made of Ore Averaging $60--Strong Mine and Doctor Mine Resume.

Special to the Gazette.

Cripple Creek, Aug. 2 —The Nugget [illegible] M. Co. now is in very rich ore. J. H. Hobbs, the manager for the last few months has had a full force of men at work pushing up the upraise on the Elizabeth Cooper claim. This is a [illegible] lying between the Nugget and the [illegible] companies in the [illegible] district and it is thought by the experts [illegible] that the upraise work has fully established the right of the Nugget company.

While doing the upraise work the miners encountered a very rich vein. While [illegible] from which there has been shipped [illegible] over $4[illegible] without [illegible] Less Smith, who [illegible] the south end of the Elizabeth Cooper [illegible] ship [illegible] vein or that has been averaging over $60 to the ton.

The Strong mine which has been closed for some time for the reconstruction of the shaft house and installation of new machinery resumed operation this morning with a full force [illegible] is practically [illegible] ment to sink to the depth required for the successful operation of the mine. Heretofore this [illegible] has been hampered by the insufficiency of its plant.

The Doctor mine [illegible] operations this morning in part and tomorrow a full force of men will be at work and the property will be worked vigorously. It has been closed for the past two weeks on account of the shafting on the engine having broken, which is now repaired. Before it was closed it was shipping about [illegible] a day.

[illegible] the Kimberly have followed their vein to a point near the side line of the Cripple Creek Columbia so as to establish that the vein continues on through the Columbia property. The vein at the present point of working varies from four to 18 inches and is very rich. As a result of this information the Cripple Creek Columbia stock was quite active today on the local exchange.

Louis Hanson, leasing on the Stein [illegible] M. Co. today [illegible] vein of fluorite quartz. No assays have been made but the quality of the formation leads the lessee to think that he has made a [illegible] adjoins the John A. Logan now owned by W. S. Stratton.

Yesterday a [illegible] drill air compressor [illegible] moved to the Cripple Creek tunnel, which is [illegible] W. S. Stratton. It is expected that [illegible] the magnificent machinery purchased by Mr. Stratton for the John A. Logan and Eagle claims will [illegible] in camp. The foundations for the machinery has been up for the past three weeks. It is claimed that this is the largest and most expensive machinery ever brought into the camp. [illegible] out [illegible] for all will be [illegible] It has been authoritatively stated that Mr. Stratton intends [illegible] John A. Lincoln [illegible] depth of [illegible] It is now down [illegible] widened and this [illegible]

[illegible] of Milliken & [illegible] leasing [illegible] block four of the Lo[illegible] of the Kimberly today shipped [illegible] that will run from [illegible] The returns from the 31-ton [illegible] last Friday are expected tomorrow.

Tom Head, leasing on the Prince Albert, will make a [illegible] ton shipment to [illegible]

A shipment of [illegible] tons was made to [illegible] from the P[illegible] which is estimated to run from $30 to $40 to the [illegible]

FINE GRANITE VEIN ON R. BURNS

Guyot Hill Property Seems Very Promising Owing to Favorable Character of Rock--Vein is Low Grade.

Encouraging reports are announced [illegible] Burns company especially on the Robert Burns claim which is situated on [illegible] company is industriously sinking on a vein which lies between walls of granite [illegible] is highly considered. As yet the values are low although the workings have attained a depth of [illegible] In [illegible] of the fact that the assays are not high there is much satisfaction in the formation of the vein which is a foot wide and lies in almost vertical direction. The character of the rock is [illegible] technically similar to the wonderful granite formation as found on the Battle Mountain properties [illegible] mingled with the tiny particles of decomposed silica which is a favorable indication. The company will continue the [illegible] and when a suitable depth is attained will cross cut right and left for the vein. On the other claims of [illegible] recent developments that have really brought the stock into notice. The Jay Bird [illegible] the [illegible] ed where the celebrated strike was made and there is but little doubt expressed that the Jay Bird claim will be fortunate enough to [illegible] an extension of the highly mineralized vein [illegible] expected. There is an active set of lessees on this claim of the Robert Burns company and they are sinking on a basalt dyke which is of a very promising nature. The Jay Bird is also in the vicinity of the Ramona where a recent strike has been made and by [illegible] the property has been enhanced in value owing to its splendid prospects. A portion of the Antelope claim on Tenderfoot is another holding of this company though this property is now lying idle.

DIRECTORS' MEETING YESTERDAY

Nothing Was Decided and Matters Will Remain Indefinite Until the End of the Week--Opinion Divided as to Mr. Bolles.

At the annual meeting yesterday of the directors [illegible] of the Colorado Springs Mining exchange nothing was [illegible] and the [illegible] question of the president for the ensuing year is as far from [illegible] intention of retiring. Of the 10 directors but six were present, the remaining four being out of the city. These [illegible] gentlemen are: F. R. McKinnie, [illegible] Otis, J. Arthur Connell and [illegible] and the directors who were [illegible] present were: E. A. Hayes, Walter [illegible] Asa [illegible] Jones, Verner Z. Reed, Arthur M. [illegible] M. Young.

Mr. McKinnie announced that there will be no [illegible] election until the [illegible] week when several of the absent directors will be on hand and efforts will be made to induce Mr. Bolles to remain as president of the exchange. Opinions were freely [illegible] yesterday [illegible] retaining Mr. Bolles at the amount of salary to which he was entitled. [illegible] that Mr. Bolles demanded a salary [illegible] It is well known [illegible] that at every [illegible] Mr. Bolles has been anxious [illegible] but [illegible] always been induced [illegible]

It is suggested that a salary of $[illegible] Mr. Bolles as a persuasion [illegible] of the exchange [illegible] but there [illegible] a few brokers who [illegible] this [illegible] other candidates to whom a salary would not be necessary. D. V. Donaldson is very seriously considered as possible by this contingent as he has formerly been identified with the exchange. It is also a fact that Mr. Donaldson is not [illegible] the exchange. A petition was started on the exchange requesting that nothing be done toward offering a large salary before a vote of the brokers is taken.

Not one of the members of the exchange fails to appreciate how Mr. Bolles has [illegible] been brought to bear to make the exchange what it is today, as a glimpse at statistics will prove. On the other hand to pay $6,000 and the huge rental which the new building will demand is a serious drain on the association's treasury.

Mr. [illegible] still [illegible] that he cannot under any circumstances remain as president of the exchange without remuneration [illegible] little more which demand his time and attention, and that in reality [illegible] president of the exchange [illegible] On the other hand Mr. Bolles' [illegible] are [illegible] to the welfare of the association that [illegible] in favor of contributing the salary in order to retain him. The issue of the next few days will explain the situation.

A. J.'S FINE REPORT

Shipments During the Past Year Net $293,743 and Withal the Report Is Highly Satisfactory.

The following annual report with statements from the officers of Argentum J[illegible] company is a clear proof of the splendid condition of the Aspen property and indicates that silver mining is still lucrative. The item of interest [illegible] report is the ore discovery of the middle of July which has netted the company over $6[illegible] and bids fair to retain this average for some time. All the reports but that of Mr. Hayes [illegible] the [illegible] terminating July [illegible]

Colorado Springs, Col., Aug. 21, 1900.

[illegible] the Stockholders of the Argentum Juanita Mining company.

I submit herewith the report of the general manager and of the treasurer [illegible] ending June 30, 1900.

The work of the last six months has been the most important in the history of the mine [illegible] past [illegible] report [illegible] May [illegible] accompanying the last quarterly report I notified the stockholders that [illegible] directors after careful consideration of the special report made by the general manager had commenced the work of unwatering the lower levels of the mine. It is very gratifying to us to be able to report at the end of the fiscal year that the success of this most important work of recovering the tenth level is practically assured and when completed [illegible] establish the property on a basis of profitable production for a long while to come.

[illegible] general manager has been able to carry out the work as he proposed in his [illegible] in every particular, justifying our confidence in him.

From the treasurer's report you will see that our surplus has decreased during the year $40 22[illegible] and for the quarter $1 6[illegible] 14, leaving a cash surplus [illegible] $5[illegible] This decrease is due to the low grade of the mill ore which averaged but $7[illegible] gross per ton in the mine [illegible] the stopes got further above the sixth and one half level and to the heavy expenses incurred in reclaiming the lower levels and for mine and mill construction.

After unwatering the seventh level a drift was run from it to the continuation of the rich ore that had been encountered on the sixth and one half level above. This drift encountered the ore and a stope was opened up about July 10 where we found some very rich ore. Up to this date we have taken from this stope $6[illegible] 039 38 net which will enable us to pay all the expenses in connection with the recovery of the [illegible] station at the Mollie Gibson thirteenth level and still leaves us a good working [illegible]

It is not unreasonable to expect that the coming year will prove the most satisfactory in the history of the company.

Manager's Report.

General Manager C. L. Palmer gives a lengthy and comprehensive report covering a statement of development work, timbering, mine and mill operating expenses, ore sales and the report on production and expense with averages.

During the year 444 feet of work was accomplished in the fourth level and its connection resulting in two unimportant discoveries of milling ore.

Production

The report on the production of the year is summarized as follows:

45[illegible] tons net weight of regular (shipping) ores netting	$1 580 73
[illegible] tons net weights of [illegible] ores netting	63 584 67
35[illegible] tons gross weight milling ores which produced [illegible] concentrates netting	151 672 56
Aggregate net smelter returns for the year	$216 637 96

Of the ore mill 1 180 tons gross were purchased from the lessees in the month of February.

The average gross value of the ore milled during the year was $7[illegible] per ton gross in the mine.

For the timbering of stoped ground, development workings and in timbering [illegible] timber were used during the year largely in the form of frame sets.

Lessees' Work

The company has received $14 344 79 in royalties and charges on lease ores during the year, this amount being [illegible] per cent of the net cash returns for [illegible] The company has paid out on these ores as royalties to lessors $2,267 41 leaving $12 077 81 as the net income for the year from leased ground.

Report of Treasurer

The report of the treasurer, Irving W. Bonbright, shows that the total grand receipts of the mine for the year was $[illegible]43 743 71. The expenses of [illegible] on mining operations, the general expense account, etc., amounted to $[illegible]73 2[illegible] The total expenses of the company were $[illegible] leaving a deficit for the year of mining operations, etc., of $31 1[illegible] 40. It should be explained that the company this year expended $23 696 37 in unwatering and [illegible] the seventh level of its mine and the wisdom of this action has been shown by the fact that as soon as the [illegible] was taken out a remarkably rich strike which has yielded about $63,000 was immediately made so that the expense was justified. The company winds up the year ending June 30 with $2 2[illegible] in its treasury which was the amount left from last year's treasury balance.

Safe Money Making and Interest Paying Investments

Cripple Creek stocks offer to careful investors unexcelled opportunities for handsome profits, and also offer large interest on the money involved. Investment under proper guidance, in the meritorious prospect stocks promises substantial profits within a very reasonable time. The dividend payers assure splendid returns on the money involved. Both guarantee safety against the loss of the original investment.

SOME DESIRABLE DIVIDEND PAYERS

There are several dividend-paying Cripple Creek stocks which offer especially attractive investments. They are entirely safe, and assure the investor excellent interest. There are three of these dividend payers that will also yield handsome profits, in our opinion, if bought now. Write us for particulars.

A GOLD HILL BARGAIN

There is a Gold Hill stock now selling around 6½ cents per share which we believe is destined to become one of the best profit-making prospect stocks on the market. This stock is backed by about 50 acres of choice ground located on nearly all of the famous hills of the camp, by sound, conservative and careful management, and by active development work, the three essentials to the ultimate great success of a Cripple Creek mining proposition. We strongly urge the purchase of this stock at once in as large amounts as possible, as we are convinced of its intrinsic value and ultimate sharp advance in price. Write us for particulars.

Conservative Investors

recognise the value of our advice and judgment, knowing that we represent the conservative element in Cripple Creek investments. We are glad to give our unbiased opinion, irrespective of whether trading is done through us or not. We are interested in everyone who is interested in Cripple Creek mines or stocks.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Aug. 27.—The market was thoroughly in keeping with the general active Monday market, and no fault with the call could be found either as to volume of trading or strength of prices. Naturally Monday is an active day, owing to the accumulation of orders and there was a fine spirit of interest manifested very generally. Elkton was probably the feature of the call, as there was considerable trading in these shares and the stock recovered in fine shape from the reaction which succeeded Saturday's rise. Elkton opened at $1.66, and quickly advanced to $1.70, at which price the stock closed. There was much strength displayed and the consensus of opinion is that the Raven hill stock is destined for higher prices.

The Lucrative Mining Company

Myself and associates are perfecting the organization of The Lucrative Mining Company. The capital stock will be 1,500,000 shares, having a par value of $1.00 per share. The treasury fund will be $15,000. On September 3, 1900, we will offer a limited amount of the stock at 7 cents per share. No subscriptions will be received for less than 1,000 shares, and we reserve the right to cut down the amount of any subscription so as to give all applicants some stock. All subscriptions should be accompanied by a draft for 25 per cent. of the subscription.

The property owned by the company is a full patented claim, which has two parallel veins about 25 feet apart, running the entire length. Both veins are developed by a shaft to a depth of 200 feet, and a large body of high grade ore is opened. The mine is now producing from two to three cars of ore per week that returns from $50 to $100 per ton.

It is equipped with a first class steam hoisting plant and substantial surface improvements. We will as rapidly as possible sink the shaft to a depth of 500 feet and extend drifts on the veins. Within four months we can put the mine in shape to ship 50 tons of ore per day, and within six months we expect to begin paying monthly dividends of 1 per cent.

I have made up my mind to stock no "cow pastures," but to put on the market only legitimate mines, such as have ore in sight, and are future dividend payers. I never expect to see any stock that I float sell on the market at the subscription price ten days after flotation.

I expect to see Lucrative stock selling at par within one year, and advise its purchase.

I am having a prospectus prepared, which will be sent to any address on application.

"There is a tide in the affairs of men which, taken at the flood, leads on to fortune."

Do not delay, but get in at the subscription price.

The Best Baker

(we don't mean the man or woman who bakes) is the coal to be had at Lennox's coal yard. That's the stuff which makes a brisk, hot fire, leaves no clinkers and little ash, and delights the careful housekeeper every way. Many a husband praises his wife's cooking—she deserves it; but don't forget our coal's share in the good work.

Dr. RYAN WRITES ADVISEDLY ABOUT A CERTAIN TONIC.

White Cross Medical Ass'n,
Chicago Opera House Blk.,
Chicago, Feb. 6, 1900.

Val. Blatz Brewing Co., Milwaukee:

Gentlemen:—In regard to your inquiry as to results obtained from the use of your MALT-VIVINE, in the several hundred cases where I have used it as an adjuvant in the treatment of Typhoid fever, Pulmonary tuberculosis, Anemia, General debility, etc., will say that it has invariably proven to be of the greatest benefit; and as a tonic, tissue builder and general reconstructive, I can and do most heartily recommend it to my brother physicians and the public at large. Respectfully,

T. Henry Ryan, M. D.

EASTERN MARKETS

New York Stocks

New York, Aug. 27.—There was some disposition to sell stocks today and the markets showed a settling tendency throughout. Sugar absorbed close to one-fourth of the day's total dealings and its marked weakness doubtless had some sympathetic effect on the rest of the list. Sentiment was affected also by the apparent abandonment of any pool operations for a rise. Unless the weakness of Sugar might be called such there was no urgency in the liquidation but there was an absence of buying demand. The weakness of Sugar found no explanation in any news announcement of the day.

The bond market was dull and reactionary. Total sales, par value, $770,000.

United States new 4s advanced ½ per cent in the bid price.

CHICAGO GRAIN.

Chicago, Aug. 27.—In wheat throughout the session there was a disposition to get on an even keel to float over the holiday tomorrow. Trade was at all times quiet but there was an undertone of firmness pleasing to holders. Outside trade was lacking, which left the support of the market to local interests. September opened at 73¼@⅞ and gradually sold up to 74⅛, closing firm ⅝ over Saturday at 74⅛@¼. Corn was quiet but firm on a moderate amount of business.

Oats were dull but firm.

Provisions started easy but steadied somewhat.

The Money Market.

New York, Aug. 27.—Money on call steady 1¼@1½. Prime mercantile paper 4@4½.

Sterling exchange easy with actual business in bankers' bills at $4.87¼@⅜ for demand and at $4.84@¼ for sixty days. Posted rates $4.85@4½ and $4.88½@4.89. Commercial bills $4.83½@4.84. Bar silver 61½. Silver certificates 61@62½. Mexican dollars 48⅝.

Government bonds strong. State bonds inactive. Railroad bonds steady.

The Metal Market.

New York, Aug. 27.—A generally weak undertone prevailed in the metal market today. The American Smelting and Refining company advanced the price of lead to $4.37½. The market, however, continues dull. Spelter ruled easy owing to a lack of demand closing at $4.05@4.15.

Brokers' price for lead was $4 and for copper $16.75.

The London Market.

New York, Aug. 27.—Commercial Advertiser's London financial cablegram:

The markets here were as dull as ditch water except for slight activity in Westralians and in Paris, which is showing up Tintos.

The bank bought £10,000 gold in bars.

The Coffee Market.

New York, Aug. 27.—Coffee Spot—Rio steady; No. 7 invoice 8½ bid; mild quiet. Cordova 9¾@14.

Where Did That Headache Go?

If there was no cure for that headache there would be some reason for tolerating it But there is a cure It is safe swift sure It goes right to the throbbing tearing pain and soothes it and quiets it until in a few minutes you can straighten up and say Where did that headache go? Never mind It is gone It will not trouble you again soon And then the medicine is so easy to take—no bad smell no big capsule to swallow It is just a little tasteless [illegible] after and after it is [illegible] [illegible] as you think of all the [illegible] [illegible] [illegible] much to keep a box in the house [illegible] the time The name? Instant Headache Cure We sell it

FRESH MEATS

We carry the largest and most complete line of Fresh and Cured Meats in the city and meet all competition quality considered

Our large refrigerator and cold storage enables us to keep our meats nice and fresh and as we buy our supplies direct from the packers in Kansas City and Omaha we do not have to depend upon inferior stuff refused by Denver markets on account of poor quality we can give a better service than any market in town

A single comparison of the quality of our meats with those of our competitors will prove the above statements correct and make you a steady customer
